DETAILED ACTION

Notice to Applicant

1. This communication is in response to the Decision by the Board filed on 03/31/08. Claims 1, 5 and 21-23 have been canceled. Claims 2, 14 and 24 have been amended. Claims 2-4, 6-20 and 24 are pending.

Allowable Subject Matter

2. Claims 2-4, 6-20 and 24 are allowed. The following is an examiner's statement of reasons for allowance and in light of the Decision by the Board.

Independent claims 2 and 12 are directed to "identifying on said progress note respective parameters selectable by the respective physician; storing said progress note with said identified parameters in a database accessible to a plurality of authorized users; and populating said database with respective progress notes and respective identified parameters resulting from further encounters between the respective patient and any respective physician so as to create a historical set of progress notes with identified parameters for that respective patient, the set of historical progress notes being interconnectable based on one or more logic operators".

The closest prior art of record, Lavin et al. (5,772,585) teaches system and method for managing patient medical records.

Iliff (6,206,829) teaches computerized medical diagnostic and treatment advice system including network access.

Walker et al. (5,949,875) teaches parallel data network billing and collection system.

However, none of the prior art cited above fairly suggests/teaches "identifying on said progress note respective parameters selectable by the respective physician; storing said progress note with said identified parameters in a database accessible to a plurality of authorized users; and populating said database with respective progress notes and respective identified parameters resulting from further encounters between the respective patient and any respective physician so as to create a historical set of progress notes with identified parameters for that respective patient, the set of historical progress notes being interconnectable based on one or more logic operators", as recited in claims 2 and 12.

Furthermore, in the decision by the Board of Patent Appeals and Interferences mailed on 03/31/08, the prior rejections of claims 1, 5, 21-23 are sustained. The reason for the reversal claims was, as noted by the Board at page 9 of the decision mailed on 31 March 2008, the examiner does not point out, and it is not apparent, where those portions of the prior art which disclose "historical progress notes being interconnectable based on one or more logic operators", as recited in claims 2 and 12.

Claims 3-4, 6-20 and 24 incorporate the features of claims 1 and 12 through their dependencies, and are also allowed for the same reasons given above, and incorporated herein.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Mark W. Scott on 06/23/08. During the interview Attorney agreed to the followings:

In claim 2, line 8 after "said identified parameters in a" insert --computer--.

In claim 2, line 10 after "populating said" insert --computer--.

In claim 14, line 2 after "wherein the identified parameters are selected from the group" delete --of--.

In claim 24, line 2 after "comprising controlling access of the database according to" delete "authorship of" insert --ownership interests assigned to--.

No further questions were discussed, no further amendments were made.

4. The drawings filed on 7/14/00 are objected to because in Fig.4 the modules have not been labeled properly and they have not been legible. Appropriate correction is needed.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to VANEL FRENEL whose telephone number is (571)272-6769. The examiner can normally be reached on 6:30am-5:00pm.
